

California OES Weather Threat Briefing

Saturday, April 10, 2021
9:00 AM PST

Day 1 (Saturday): Locally gusty winds and low humidity will lead to elevated fire weather conditions across the southern California mountains and deserts again today.

National Weather Service

*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

04/10/21 - 04/16/21

Saturday-Friday

- Elevated winds and fire weather conditions are expected for the southern California Mountains as well as the adjacent deserts and passes through Sunday morning, and then again Sunday evening through Sunday night.
- The marine layer moves into southern California late Sunday night, with gusty west winds developing across the Antelope Valley on Monday afternoon and continuing each afternoon through the week
- Another round of gusty winds and elevated fire weather concern is expected across the central valley and southern mountains and deserts on Tuesday and Wednesday.
- Dry conditions will prevail through early next week with low chances for minor snow accumulations over the higher Sierra by mid-week
